DEVELOPMENT EXPERIENCE

Monsoon Commerce 2011 – Present

Developer / QA Manager

Note: Monsoon Commerce acquired my previous employer, Stone Edge Technologies, in 2011.

- Managed the QA process
- Created and ran test cases
- Resolved numerous software bug fixes
- Assisted support techs with high level tickets

Stone Edge Technologies 2005– 2011

PHP Developer / Technical & E-commerce Writer

- Managed the QA process
- Managed QA staff assigned to testing
- Wrote integration with an email marketing service
- Wrote real-time inventory integration for a shopping cart
- Maintained integrations with various shipping software
- Developed and delivered presentations at company conferences
- Provided technical support (prior to being named a developer and QA Manager)

OTHER EXPERIENCE

Independent Projects & Contracting

2012 – Present

Developer & E-commerce Writer

- Custom Wordpress PHP plugin development for 3 Beat Media
- E-commerce writing for the BizAmmo.com small business blog, owned by 3 Beat Media

PERSONAL SUMMARY

My objective is to find a full-time position in software development. My specialty is e-commerce software, but I am open to working on software in other industries. The bulk of my development experience is with MS Access, Visual Basic, and SQL Server. Other development skills are included below.
